

K9 Inspection Checklist

Inspection Guidelines

No pesticide applications should be done thirty (30) days prior to inspection.

This includes over-the-counter or professional products.

Remove any pest control products

Mouse/rodent bait (Decon), glue boards, mouse snap traps, etc.

Refrain from using household cleaners or disinfectants

Bleach, ammonia rubbing alcohol, etc.

Thoroughly vacuum entire area including, all floors and furniture prior to arrival.

Secure any items that may harm or distract our canines during inspection.

Spilled food, sharp objects, or medications

Remove all pets, pet food, water bowls, litter boxes and toys.

Remove any potpourri, deodorizers or air fresheners

At least two (2) hours prior to inspection.

Extinguish all cigarettes, other smoking materials, candles and incense burners.

At least three (3) hours prior to inspection.

Close all windows and outside doors.

Turn off oscillating fans, box fans, exhaust fans, and ceiling fans prior to arrival.

Air conditioners or furnaces may be left on.

Ensure each room is as free of clutter as possible.

The canine team must have access to all baseboards and furniture.

If you have any items that were used on a recent vacation or overnight stay, such as luggage or suitcases, please have them available for inspection. Limit any noise, including pet or human distractions. You may be asked to step outside of your residence while the inspection is taking place.
